## VOLUME XCIX

### A

Accounting: Accurate costs and business management..... 483\$  
 Accounting: The importance of knowing detail costs..... 322\$  
 Acetylene generator, Portable, Oxweld Acetylene Co..... 596\*  
 Acid container, An inexpensive, by Frank Bentley..... 724  
 Adjusting machine for blacksmith shop, Walter Stock Adjusting Machine Co..... 178\*  
 Advertising pages, Our..... 671\$  
 Air brake and air signal piping (Air Brake Assn.)..... 475\*  
 Air Brake Assn. convention..... 371, 471, 565  
 Air brake equipment at Rice Institute..... 230\*  
 Air brake equipment maintenance..... 257\$  
 Air brakes (see also Brakes)  
 Air compressor cylinders, A question pertaining to locomotive..... 200\$  
 Air compressor laundering device (N. Y. C.)..... 574\*  
 Air compressor maintenance..... 520\*  
 Air compressor misalignment..... 199\$  
 Air compressor, Portable motor driven Sullivan Machinery Corp..... 127\*  
 Air compressor, Valveless high speed, John Milne..... 392\*  
 Air compressors, More efficient (Air Brake Assn.)..... 407  
 Aishton, R. H., Address by (Div. V Mech.)..... 125\*  
 Ajax Mfg. Co., Bolt and rivet heading machine..... 259\$  
 Allen, J. E., Comment on floating bushings  
 Allis-Chalmers Mfg. Co., Roller bearing type motor..... 791\*  
 Allison, W. M., Grinding cast iron wheels (Car Inspectors' Assn.)..... 710  
 Allman, Wm. N., Economies effected by insulating train steam pipes..... 160  
 Alquist, P., Double sheathed 55-ton box cars for D. L. & W..... 705\*  
 American Blower Co., Heating unit of large capacity..... 592\*  
 American Car & Fdry. Co., Vertical and horizontal reaming machine..... 589\*  
 American Engineering Co., Electric hoist with low headroom..... 64\*  
 American Hoist & Derrick Co., Electric rivet heater..... 732\*

### AMERICAN RAILWAY ASSOCIATION

Div. V—MECHANICAL  
 Aishton, R. H., Address by..... 408  
 Arbitration committee, Report of..... 438  
 Brakes and brake equipment, Discussion of recommendations for, by Robert H. Blackall..... 287\*  
 Brakes and brake equipment, Report on Car construction, Report on..... 436\*  
 Couplers and draft gears, Report on..... 426\*  
 Election of officers..... 441  
 Electric rolling stock, Report on..... 409  
 Engine terminal facilities for electric equipment..... 423  
 Fuel, The conservation of, by F. H. Hammill..... 424  
 General committee, Report of..... 416  
 Hammill, F. H., The conservation of fuel..... 409  
 Hand rail columns, Removable..... 422  
 Loading rules, Report on..... 442\*  
 Locomotive design and construction, Report on..... 418  
 Locomotive development..... 422  
 Locomotive utilization, Report on..... 403\$  
 Lubrication, Hydrostatic vs. mechanical, of locomotive valves and cylinders..... 419  
 Lumber for cars..... 430  
 Members, The departed..... 409  
 Multiple unit equipment, Electric..... 409  
 Prices for labor and materials..... 424  
 Repair facilities, How about..... 438  
 Safety appliances, Report on..... 403\$  
 Shops and engine terminals, Report on..... 444  
 Shop facilities for electric rolling stock..... 410\*  
 Specifications and tests for material..... 424  
 444

### AMERICAN RAILWAY ASSOCIATION—Continued

Specifications for freight cars..... 427\*  
 Tank cars, Report on..... 434  
 Tatum, J. J., Address by..... 407\*  
 Threads, Status of standard..... 419  
 Water columns, Report on standardization of..... 420\*  
 Wheels, Report on..... 404\$, 445

### EQUIPMENT PAINTING SECTION

Apprentice systems, by J. W. Gibbons..... 635  
 Paint and varnish at terminals, Maintenance and care of..... 636  
 Standards—Cars and locomotives, Report on..... 637  
 Paint testing, by W. O. Quest..... 693\*  
 Tests, Report on..... 695  
 American Railway Tool Foremen's Assn. (see Tool Foremen's Assn.)..... 159\*  
 American Refrigerator Transit cars..... 638\*  
 American Saw Mill Machinery Co., Motor-driven band saw..... 198\$  
 American Steel Co., Forming brake shaft steps from cold stock..... 588\*  
 Anchors, Truck column, Universal Draft Gear Attachment Co..... 459\*  
 Angle cock, Semi-automatic, Sprague Safety Control & Signal Corp..... 198\$  
 Apparatus, Measuring, for automatically supplying cleaning compound to a feed-water heater (Fuel Assn.)..... 362  
 Applying corrugated steel ends to box cars..... 511\*  
 Apprentice conferences..... 198\$  
 Apprentice instructors meet, A. T. & S. F.; Apprentices repair gondolas unaided (K. C. S.)..... 362  
 Apprentice systems, by J. W. Gibbons (Equip. Paint. Sec.)..... 635  
 Apprentice training: Encouragement from a reader..... 675\$  
 Apprentice training: Is the A. R. A. overlooking a good bet?..... 742\$

### ARBITRATION COMMITTEE DECISIONS

Case No. 1314—M. C. vs. B. & M.—Rule 93..... 33  
 Case No. 1315—G. C. L. vs. Erie—Rule 8..... 33  
 Case No. 1316—E. P. & S. vs. S. P.—Rule 5..... 33  
 Case No. 1317—B. & S. vs. S. B.—Rule 120..... 108  
 Case No. 1318—Pierce Oil Corp. vs. M. & St. L.—Rule 2..... 162  
 Case No. 1319—U. P. vs. C. B. & Q.—Rule 99..... 162  
 Case No. 1320—C. & O. vs. St. L.—S. F.—Rule 112..... 221  
 Case No. 1321—M. V. vs. M. C.—Rule 32..... 221  
 Case No. 1323—Barrett Co. vs. C. M. & St. P.—Rule 32..... 501  
 Case No. 1324—C. N. & L. vs. C. & W. C.—Rules 2 and 4..... 283\*  
 Case No. 1325—G. C. L. vs. C. & W. C.—Rule 60..... 501  
 Case No. 1326—B. & A. vs. M. C.—Rule 32..... 222  
 Case No. 1327—K. O. & G. vs. Allied Refining Co.—Rules 5 and 94..... 283  
 Case No. 1328—Johnson Oil & Refining Co. vs. Shaffer Oil & Refining Co.—Rule 107..... 283  
 Case No. 1329—O. N. vs. Allied Refining—Rule 43..... 567  
 Case No. 1330—C. I. & L. vs. C. C. & O.—Rule 99..... 566  
 Case No. 1331—C. B. & Q. vs. C. & W. C.—Rule 32..... 283  
 Case No. 1332—P. & R. vs. B. R. & P.—Rule 21..... 567  
 Case No. 1333—S. P. vs. C. B. & Q.—Rules 86 and 91..... 633  
 Case No. 1334—I. C. vs. A. B. & A.—Rule 86..... 634  
 Case No. 1335—C. M. & St. P. vs. N. Y. C. & St. L.—Rule 32..... 633  
 Case No. 1336—C. R. I. & P. vs. C. N.—Rule 32..... 634

### ARBITRATION COMMITTEE DECISIONS—Continued

Case No. 1337—C. & W. C. vs. L. N.—Rule 98..... 698  
 Case No. 1338—St. L. T. & E. vs. C. R. I. & P.—Rule 32..... 761  
 Case No. 1339—A. T. & S. F. vs. Pierce Oil Corp.—Rule 108..... 761  
 Case No. 1341—S. P. vs. I. C.—Rule 107..... 761  
 Case No. 1342—C. & N. W. vs. B. & O.—Rule 32..... 698  
 Arbitration Committee, Report of (Div. V—Mech.)..... 405\$  
 Armstrong Mfg. Co., West drilling vise..... 730\*  
 Ashton Valve Co., Quartering gage with vernier attachment..... 62\*  
 Asquith, Wm., Horizontal boring machine for journal box bearings..... 179\*  
 ATCHISON, TOPEKA & SANTA FE  
 Apprentice instructors meet..... 362  
 Jigs and devices, Shop (Tool Foremen's Assn.)..... 777\*  
 Welding practice..... 580\*  
 Atkins & Co., E. C., Silver steel hacksaw blade..... 790\*  
 Atlantic Coast Line, Wrench for tightening turnbuckles..... 773\*  
 Axles, Tool for upsetting car, by F. L. Clark..... 570\*

### B

Baker Bros., Draw cut slotter..... 123\*  
 Baker Bros., Boring and drilling machines..... 527\*  
 Baldwin Diesel-electric locomotive..... 689\*  
 Ball parallels, J. F. Smith Tool Co..... 189\*  
 Balsam-wool insulation for refrigerator cars, Wood Conversion Co..... 528\*

### BALTIMORE & OHIO

Drawbars and pins (Blacksmiths' Assn.)..... 779  
 Fordson tractor, Transporting wheels with a ..... 698\*  
 Banks, William, Frame making and repairing (Blacksmiths' Assn.)..... 650  
 Barco Mfg. Co., Lubricated plug valve..... 799\*  
 Barrett Machine Co., Drop-bottom car door safety friction wrench ..... 793\*  
 Basford, G. M., Fundamental fuel factors (Fuel Assn.) ..... 454  
 Basford, G. M., obituary ..... 677\*  
 Bason, F. W., How does fire affect steel underframes of box cars? ..... 541\$  
 Bast, P. E., Address of (Fuel Assn.) ..... 453  
 Batchelder, E. H., Castillo portable car wheel grinder ..... 731\*  
 Bearings, Anti-friction, for railroad equipment ..... 197\*  
 Bearings, Disk, for railway cars, Wollmar Engineering Corp..... 182\*  
 Bearing, Roller, for line shaft hangers, Dodge Mfg. Corp..... 61  
 Beaudry Co., Upright air hammer ..... 307\*  
 Beaver, Roy C., Derailments of locomotives on curves ..... 16\$, 138\$  
 Bell, Harry J., Foremen's safety school..... 540\$  
 Bench for repairing air pumps (K.C.S.)..... 234\*  
 Bench for repairing air pumps (Southern)..... 292\*  
 Bending rolls, Boiler and tank shop, Consolidated Machine Tool Corp..... 378\*

### BENTLEY, FRANK

Acid container ..... 724\*  
 Method of applying gages to eliminate vibration ..... 45\*  
 Valve piston repairs, Reducing ..... 58\*  
 Whistle valve test rack ..... 341\*  
 Bessemer & Lake Erie, Reclamation of car journal packing ..... 219\*  
 "Bill Black," The foreman—a superman? ..... 555\$  
 "Bill Brown," The foreman's job (competition) ..... 360  
 "Bill Brown" or "Top Sergeant"—which? ..... 492, 554, 608, 679

## 1925—GENERAL INDEX (Continued)

BILLY, C. H., Reclaiming asbestos locomotive lagging.....	607	BOSTON & MAINE—Continued	CAR—Continued
BLACKALL, Robert H., Hand brake power for freight cars.....	287	Wheel stick with renewable blocks.....	99*
BLACK & DECKER CO., Portable electric taper.....	249	Wrench, Ratchet, for passenger car truss rods.....	109*
BLACKSMITHS' ASSN. convention.....	575	Bradford Corp., Huntoon brake beam guide and safety hanger.....	591*
BLOUNT, J. G., Co., Ball Bearing motor grinder.....	649	Brains an asset, Are.....	198
Blower for drafting locomotives in engine-house, Coppers Engineering Corp.....	590	Brake beam guide and safety hanger, Huntoon, Bradford Corp.....	591*
Blower pipe, Locomotive (M. & St. L.).....	388	Brake, Emergency, for Mallet engine trucks, by H. C. Gillespie (C. & O.).....	652*
Blue print filing rack (D. & R. G. W.).....	787	Brake hanger bracket for cast steel side frames, Proposed.....	510*
BLUNT, J. G., Design of the steam locomotive.....	716	Brake performance, Effecting better.....	403
Boiler Makers' Assn. convention.....	86	Brake pipe leakage, Report on (Air Brake Assn.).....	471
Boiler sling hanger for wrecking service.....	370	Brake power for freight cars, Hand, by Robert H. Blackall.....	287*
BOILERS	222	Brakes and brake equipment, Report on (Div. V—Mech.).....	436*
Inefficient, Why use.....	28	Brakes, Results of improper handling of locomotive and air (Traveling Engineers' Assn.).....	517
Locomotive, Evaporative capacity of, by Alexander P. Poperev.....	487	Brake tests on German State Rys.....	616*
Locomotive, Evaporative capacity of, by C. A. Selye.....	675	Brake wheels, Old style vs. new designs, by T. J. Lewis.....	209
Locomotive, Causes and prevention of pitting in, by C. H. Koyl.....	517	Brasses, Finding amount of wear in main rod, by W. R. McIvor.....	201
Locomotive, Evaporative capacity of, by Lawford H. Fry.....	674	Brasses, Perpetual examination of.....	4
Locomotive, Evaporative capacity of, by R. Eksergian.....	741	Brennan, E. J., Railway motor car service on the C. G. W.....	638
Locomotives, Evaporative capacity of, by W. F. Kiesel.....	606	Bridgeport Safety Emery Wheel Co., Buffing lathe with chain drive.....	274
Bolt and rivet heading machine, Automatic, Ajax Mfg. Co.....	125	Brill Co., J. G., Motor car of large capacity.....	244
Bolts, Device for holding journal box.....	160	Bristol Co., High resistance indicating pyrometer.....	21
Bolster cushion, A friction spring, Frost Railway Supply Co.....	304	Bronze welding for locomotive frames (Georgia R. R.).....	187
Bolt pointing and threading machine, Economy Engineering Co.....	308	Bronzing driving boxes, by J. H. Hahn.....	235
BOMBAY, BARODA & CENTRAL INDIA broad gauge locomotives.....	142	Brown, A. B., Southern car shop at Hayne.	699
BOOKS		BROWN & SHARPE MFG. CO.	
Arc welding and cutting manual.....	76	Milling machine with motor in the base.....	243
Car truck and draft gear maintenance, by E. W. Hartough.....	76	Pyrometer, Multiple recording.....	732
Diesel-electric locomotives for standard gauge railway service, by Dr. Herbert Brown.....	137	Square, A diemaker's.....	664
Eye hazards in industrial occupation, by Louis Resnick and Lewis H. Carris, Foremen, Development of (Chamber of Commerce study).....	3	Square, Adjustable.....	791
Handbook of wooden car repairs, by E. W. Hartough.....	756	Tools for the toolroom.....	527
Laying out for boiler makers.....	76	BRUBAKER, W. L., BROS.	
Locomotive operation, Principles of, by Arthur Julius Wood.....	541	Staybolt tap, Spiral fluted.....	123
Manual of locomotive running shed management, by Walter Paterson.....	673	Reamer, Spiral inserted blade.....	790
Master Blacksmiths' proceedings.....	605	Brush, Turbine driven wire, Standard Turbine Corp.....	798
Officer, The making of a railroad, by R. E. Woodruff.....	199	Bryant Chucking Grinder Co., Improved internal grinders.....	788
Principles of machine design, by C. A. Norman.....	676	"Buck Private," Slave-drivers not wanted.....	556
Proceedings Air Brake Assn.....	741	Budgets: A bundle of sticks.....	672
Proceedings of the International Railway Fuel Assn.....	673	Budgets: Planning for future mechanical.....	323
Pulverized fuel, colloidal fuel, fuel economy and smokeless combustion, by Leonard C. Harvey.....	77	Buffalo Forge Co., Motor driven bench drill.....	63
Railway pipe fitters handbook, by J. Frank Borer.....	137	Bulkhead, All-metal, and ice grate, Equipment Specialties Co.....	188
Recent progress in engineering production, by C. M. Linley.....	76	Bullard Machine Tool Co., Power operated chuck.....	379
Resistance of express trains, by C. F. Dendy Marshall.....	541	Bureau of Locomotive Inspection report.....	14
Study of the locomotive boiler, by Lawford H. Fry.....	38	Burning woodwork on steel underframes.....	607
Superheat engineering data.....	485	BURNS, J. E., JR.	
Technical mechanics, statics, kinematics and kinetics, by Edward R. Maurer.....	259	Steel, Heat treatment of spring.....	111
Tests for railway material and equipment, by Henry Knauer.....	605	Valve motion parts, Case carburizing and hardening.....	231
Traveling Engineers' Assn. proceedings.....	199	Bushings, Another question about, by Sidney H. Kohler.....	406
Booster inspection and maintenance (L. V.)	290	Bushings, Comment on floating, by J. E. Allen.....	259
Bootes, J. T., Reclaiming files.....	77	Bushings, Floating, have given good results, by G. Chas. Hoey.....	405
Borden Co., Portable power driven pipe threader.....	793	Bushings, Floating, The advantages of, by B. G. Miller.....	260
Boring bar for compound pump cylinders (C. & O.).....	57	Bushings, Floating, What advantages have, by S. J. Stark.....	200
Boring bar, Motor driven cylinder, E. J. Rookshy & Co.....	386	Bush, Joe, Why some foremen are hard-boiled.....	680
Boring machine in the railroad shop, by L. R. Gurley.....	295	Butler, F. A., Test of B. & A. 2-8-4 type locomotive.....	621
Boring jig for air pump cylinders (Illinois Central).....	238	Butler Mfg. Co., Rail motor car piston.....	303
Boring machines (see Machine Tools)		C	
BOSTON & ALBANY		Cables for wrecking service.....	38
Locomotive, High power 2-8-4 type.....	621	Calipers, Driving box, by L. V. Mallory.....	724
Cars, Suburban, Turtle back roof applied to.....	277	CANADIAN NATIONAL	
Keyway cutter, Eccentric pin.....	516	Water column, L. & C. cast steel.....	625
Models, Wooden, for forging machine cutting tools.....	119	Locomotives, New Santa Fe.....	20
Plating processes.....	100	"Captain Blood," "Top Sergeant" cold-blooded	682
Renovating interior trimmings of passenger cars.....	100	Carborundum Co., Portable sanding machine for car repair work.....	555
Scheduling system, Passenger car.....	502	Car department service, Improving, by L. K. Sillcox.....	595
Tool box for valve motion mechanics.....	238	Car Inspectors' and Car Foremen's convention	24
		627*, 708.	
		Carlton Machine Tool Co., Ball bearing heavy duty radial drill.....	762
		Carpenter, H. Y., Increasing income by reducing repair costs.....	245
		Carrier for holding refrigerator car insulation in vertical position.....	213
		CAR	
		Bad order, Methods used by C. M. & St. P. for reporting.....	228
		Box, Exhibit of proposed standard, at Chicago.....	104

## 1925—GENERAL INDEX (Continued)

Firing locomotives, A suggestion for, by R. W. Karns	756	General Foremen's convention	645*	Hose dismantling and assembling machine, Covington Machine Co.	246
Fitz Simmons, E. S., Inspection of flexible staybolts	774*	Generator, Portable acetylene, Oxweld Acetylene Co.	596*	Hot boxes (see Journal boxes)	
Fixtures for holding distributing and triple valves, by H. J. Duerberger (M. C.)	116*	Geometric Tool Co., Rotary self-opening die head	248*	Hunter Saw & Machine Co., Saw for cutting metal cold	594*
Flannery Bolt Co., Inspection of flexible staybolts	774*	Georgia R. R., Welding locomotive frames with bronze	235*	Hydrostatic testing plant, Locomotive hot water, National Boiler Washing Co.	731*
Flues, Mechanical means for cleaning locomotive, by C. B. Smith (Fuel Assn.)	461	German State Rys. brake tests	209*		
Foley, A. L., A study of locomotive whistles	749*	Gibbons, J. W., Apprentice systems (Equip. Paint. Sec.)	635		
Fordson tractors (Southern)	704*	Giddings & Lewis Mach. Tool Co., Six-foot plain radical drill	523*		
Fordson tractor, Transporting wheels with a (B. & O.)	698*	Gillespie, H. C., Emergency brake for Mallet engine trucks	652*	Illinois Central, Boring jig for air pump cylinders	238*
FOREMAN'S JOB (COMPETITION)		Globe Railway Equipment Co., Spring track assists in enginehouse work	585*	Income, Increasing, by reducing repair costs, by H. Y. Carpenter	213
Announcing	258\$, 321\$, 604\$	Gould Coupler Co., Automatic slack adjuster for freight cars	594*	INDEPENDENT PNEUMATIC TOOL CO.	
Article by "Bill Brown"	360	Grates with restricted air openings, Report on (Fuel Assn.)	547	Drill and reamer for car construction work	391*
Article by C. F. Maw	746	GRAY, G. A., Co.		Thor riveting hammer	728*
Article by John H. Linn	496	Planers, Abutment type apron for	393*	Index, Order your	73\$, 739\$
Article by J. W. Murphy	539\$, 543*	Planer with simplified control	653*	INGERSOLL-RAND CO.	
Article by W. J. Eagan	747	Grease cup, Constant feed, National Automatic Grease Cup Co.	250*	Drill, Pneumatic wood boring	382*
Article by W. J. Taylor	610	Great Northern Mallet locomotives	544*	Drill, Pneumatic, Provided with speed governor	63*
Article by Zed E. Day	681	Grinding cast iron wheels, by W. M. Allison (Car Inspectors Assn.)	710	Rivet sets, Triple service alloy steel	531*
"Bill Brown" started something	492	Grinding of cast iron and steel wheels (Div. V.—Mech.)	445	Inspection programs, Car, by L. K. Sillcox	27
Foreman must prove worth as a leader, by George T. Maguire	609	Guard, A safety, for circular saws	350*	Inspection, Rational car	257\$
Foremanship training	540\$, 542\$, 321\$, 603\$	Gullage, Joseph, Passenger car scheduling system	502*	Inspection, Systematic terminal, of locomotives, by Chas. Raftt	139\$
Foreman's qualifications, The		Gummerson, T. C., Minimum use of figures when setting Walschaert gear	485\$	Inspection report, Bureau of Locomotive Inspectors, Educating car, on the C. & E. I., by R. E. May	14*
Foreman's Tool, responsibilities, by G. T. Martin (Tool Foremen's Assn.)	639	GURLEY, LEROY R.		Instructors, Apprentice, meet (A. T. & S. F.)	711
Foremen's safety school, by Harry J. Bell	540\$	Machine tool purchases in 1924	46	Insulating train steam pipes, Economies effected by, by Wm. N. Allman	362
Foremen training	198\$	Milling machines in railway shops	343*	Insulation, Applying, to refrigerator cars	160
Foremen, Training in leadership	321\$, 364\$	Tool, A versatile, for locomotive repair shops	295*	Insulation, Balsam-wool, for refrigerator cars, Wood Conversion Co.	228*
Foremen, Why some, are hard-boiled, by Joe Bush	680\$, 228*			Insulation for refrigerator cars, Johns-Manville	528*
Forge, Portable, for heating rivets					311
Forging, Drop, by F. P. Deissler (Blacksmiths' Assn.)	577*	H		INTERCHANGE RULES	
Forging machine cutting tools, Wooden models for (B. & M.)	119*	Hacksaw blade, Silver steel, E. C. Atkins & Co.	741\$	Discussion (C. I. & C. F. Assn.)	762
Forging machine dies, Pointers on (Tool Foremen's Assn.)	783*	Hacksaw frame, L. S. Starrett Co.	650	Recommended changes (Div. V—Mech.)	405\$, 438
Forming brake shaft steps from cold stock (American Steel Co.)	230*	Hacksaws, Getting the most out of	578	International Machine Tool Co., A 26-in. high power turret lathe	381*
Formula for determining relationship between rate of evaporation and rate of combustion	487\$, 548\$, 674\$	Hahn, J. H., Bronzing driving boxes	114*	International Railroad Master Blacksmiths' Assn. (see Blacksmiths' Assn.)	
Frame making and repairing, by William Banks (Blacksmiths' Assn.)		Hale, T. Laurence, Ramsay turbo-electric locomotive	304*	International Railway Fuel Assn. (see Fuel Assn.)	
Frame repairing, by P. T. Lavinder (Blacksmiths' Assn.)		Hallington, Alfred M., "Top Sergeant" a supreme egotist		International Railway General Foremen's Assn. (see General Foremen's Assn.)	
Frame, Temporary repairs to a one-piece locomotive		Hammer, Upright air, Beaudry Co.		Iron, A word in favor of charcoal, by S. H. Woodroffe	4\$
Frost Railway Supply Co., A friction spring bolster cushion		Handles, Device for forming, on a wood shaper			
FRY, LAWFORD H.		Handling locomotive supplies (Union Pacific)			
Boilers, Evaporative capacity of locomotives	674\$	Hand rail columns, Removable (Div. V—Mech.)		J	
Locomotive test plants—Their influence on design		Harger, M. L., Hot box competition article	422	Jenkins Bros., Rapid action valve	524*
Steels, Discussion of locomotive	88	Heater, Electric rivet, American Hoist & Derrick Co.	157	Jig for drilling oil holes in spring hangers (Tool Foremen's Assn.)	643*
Fuel Association convention	258\$, 373	Heater, Portable fuel oil	732*	Jig for finishing rod brasses, by E. A. Miller	652*
Fuel economy at power plants on the Southern Pacific	73\$, 94	Heater, Vacuum torch and tire, Mahr Mfg. Co.	120*	Jig for holding eccentric crank arm while facing on boring mill (Tool Foremen's Assn.)	643*
Fuel factors, Fundamental, by G. M. Basford (Fuel Assn.)		Heating unit of large capacity, American Blower Co.	121*	Jig for holding main rod brasses on shaper table when milling grease grooves, by E. A. Miller	584*
Fuel, How the C. G. W. controls use of	135\$, 144*	Heat treatment of spring steel, The, by J. E. Burns, Jr.	592*	Jig for planing the boiler radius on cylinder saddles, by C. G. Williams	44*
Fuel oil tire heater	120*	Heat treatment of steel and iron, by Frank Sillix (Blacksmiths' Assn.)	111*	Jig, Pilot frame (Pere Marquette)	242*
Fuel, the conservation of, by F. H. Hammill (Div. V—Mech.)		Hendrie by-pass valve	649	Jigs and devices, Effective shop (Tool Foremen's Assn.)	777*
Fulton Drop Forge Co., Steel drop forged bench vise	416	Henson, H. H., Driving box competition article	143*	Jigs and devices, Report on shop (Tool Foremen's Assn.)	642*
Furnace, Melting, for soft metals, Johnson Gas Appliance Co.	798*	Hill, J. H., Carbon and high speed steel (Blacksmiths' Assn.)	236*	Jig used in cutting slots for castle nuts (A. T. & S. F.)	777*
Furnace, Oil rivet, Johnston Mfg. Co.	250*, 795*	HISEY-WOLF MACHINE CO.	576	Johns-Manville, Insulation for refrigerator cars	311
G		Drill, Standard duty half-inch	382*	Johnston Gas Appliance Co., Melting furnace for soft metals	250*
Gage, Angle, L. S. Starrett Co.	64*	Screw driver, Electric friction head	62*	JOHNSTON MFG. CO.	
Gage, Crank pin throw	584*	Hodges, G. P., Methods of selecting and training supervisors	301	Oil rivet furnace	795*
Gage, Cutter clearance, Brown & Sharpe Mfg. Co.	527*	Hoecker, Wm. T., Locomotive Efficiency—past and present	674\$	Valve, Automatic shut-off, for oil lines	312*
Gage, Drill point, L. S. Starrett Co.	64*	HOEY, G. CHARLES		Jones, George F., Ramsay turbo-electric locomotive	5*
Gage, Feeler, L. S. Starrett Co.	383*	Floating bushings have given good results		Jones, W. A., Distribution of overhead charges in locomotive shops	513
Gage, Plug, for rapid inspection, Van Keuren Co.	656*	Packing, Reclamation of car journal (B. & L. E.)	405\$	JOURNAL BOXES	
Gage with vernier attachment, Quartering, Ashton Valve Co.	62*	Riveter, Coupler yoke	219*	Competition article by A. M. Orr	499
Gages, Brake shoe, brake beam and brake head (Div. V—Mech.)	437*	Hofiman, George P., Unit spot system of repairing steel cars	110*	Competition article by M. L. Harger	157
Gages, Limit, for billing classification of second-hand cast iron wheels (Div. V—Mech.)	446	Hoist, Electric, with low headroom, American Engineering Co.	153*	Competition, article by T. O. Quinn	217*
Gages, Method of applying, to eliminate vibration, by Frank Bentley	45*	Hoist, High speed electric, Roeper Crane & Hoist Works	64*	Dust guard, Union Asbestos & Rubber Co.	529*
Gallmeyer & Livingston Co., Cutter and tool grinder		Hoisting beam for wreck cranes	530*	Hot, Treating, on modern power, by J. E. Allen	607\$
Gardner Governor Co., Flood lubricated pump		Hold downs, Tool steel, hardened and ground, L. S. Starrett Co.	229*	Journal brasses, Perpetual examination of...	638
Gardner, Henry A., An experiment to reduce refrigeration losses		Hooks for wrecking service	63*	Journal brasses, Wheel dog for changing, Railhead Wheel Dog Co.	655*
Gas cutting, A waste in...	107*	Horse for the woodworker (D. & H.)	38*	Juneau, C. G., Freight car maintenance problems	561*
General Committee, Report of (Div. V—Mech.)	257\$		710*
